PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS

Approval of the recommendations is necessary to ensure that delivery of vital medical, radiology reports, and overflow medical transcription services continues uninterrupted at various DHS medical facilities during the completion of the process for replacement agreements. The current Agreements will expire on December 31, 2009.

On September 8, 2009, DHS advised your Board that a Request for Statements of Interest (RFSI) for Medical and Radiology Reports Transcription Services was released on August 20, 2009, which would combine the services currently provided under the six agreements under one agreement. The RFSI resulted in eleven responses, a greater number than what was anticipated. Several responses received provide some solutions that use new technology. Evaluation of this new technology will require demonstration and feasibility

tests in order to determine the most efficient and cost effective solution for DHS now and into the future.

The new agreement is anticipated to provide for continued digital medical and radiology reports transcription services as a Prop A contract, as well as allow for future phased implementation of Speech Recognition technology for various departments at each medical facility.

The four month extension, effective January 1, 2010 through April 30, 2010, along with the month-to-month, if necessary, through June 30, 2010, will allow the Department time to complete the review of the responses and negotiate contract terms and conditions with the selected vendor.

Implementation of Strategic Plan Goals

These actions support Goal 4, Health and Mental Health, of the County's Strategic Plan.

FISCAL IMPACT/FINANCING

The rates set forth in all six Agreements will remain the same during the recommended extension period, January 1, 2010 through June 30, 2010. The total estimated cost is shown on Attachment A.

Funding is included in the DHS Fiscal Year (FY) 2009-10 Final Budget.
